EXAMINER'S ACTION

Art Unit: 1806

1. Applicant's election with traverse of Group IV in Paper No. 14 is acknowledged. The traversal is on the ground(s) that the examiner has not established that the groups are drawn to different inventions. This is not found persuasive because the previous restriction requirement clearly sets forth the rationale set forth in the M.P.E.P for restricting different inventions..

The requirement is still deemed proper and is therefore made FINAL.

2. Moreover upon further consideration of the elected group a further election is deemed to be necessary as the invention of group IV contain claims directed to the following patentably distinct species of the claimed invention: All of the species listed in claims 7 and 12. All of these antibodies are directed against distinct antigens which have unique structures and unique functions. Furthermore, the antibodies produced against these antigens are structurally and functionally unique and do not cross react.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 4-7, 10-12 are generic. The claims will be examined only to the extent that ^{they} ~~it~~ apply to the elected antibody.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently

added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5 Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

10 3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

15 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lila Feisee whose telephone number is (703) 308-2731. The examiner can normally be reached on Mondays-Fridays from 9:00-5:30.

20 If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marian Knode, can be reached on (703) 308-4311. The fax number for this Group is (703) 305-7401.

25 Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
